

content management system (CMS), which enables you to build Web sites and powerful online applications. Many aspects, including its ease-of-use and extensibility, have made Joomla the most popular Web site software available. Best of all, Joomla is an open source solution that is freely available to everyone.

What's a content management system (CMS)?

A content management system is software that keeps track of every piece of content on your Web site, much like your local public library keeps track of books and stores them. Content can be simple text, photos, music, video, documents, or just about anything you can think of. A major advantage of using a CMS is that it requires almost no technical skill or knowledge to manage. Since the CMS manages all your content, you don't have to.

The image shows a Joomla! login form. At the top, there is a blue header with the word "Login" in white. Below the header, the form is set against a light blue background. It features two input fields: "Username" with the text "abdu" and "Password" which is empty. Below the password field is a "Login" button with a dotted border. To the right of the button are two radio buttons for language selection: "عربي" (Arabic) and "English". The "English" radio button is selected, indicated by a blue dot.

Welcome!

It gives me great pleasure to welcome you to the new website of Dasman Model Bilingual School. Whether you are a prospective student, parent, or teacher, you will find that our website is full of useful information that tells the story of our school. I would like to take this opportunity to tell you a little about myself.

I come from a beautiful city in Western Canada called Vancouver. Before being appointed as the Superintendent in 2011, I served four years as the KG/Elementary Principal at Dasman Model School. During the time that I have been at this wonderful school, I've met many wonderful parents and students. I am honored to represent Dasman Model School and am proud of the learning environment that we provide at the school.
